Cyber Shoppe

Complete IT solutions provider

Computer Hardware, Software, Peripherals & Networking

About us

Commenced in the year 2000, Cyber Shoppe is a premier IT Solutions company offering an all-round range of IT Solutions in the form of technologically driven Products and Services for all IT needs. Founded by the duo of Kumud Kumar Jain and Nitin Jain, this enterprise is a result of their sheer dedication, hard work and their motive to provide hassle-free IT Solutions to customers.

Cyber Shoppe is known to be the one and only IT Solutions provider that renders all-round IT Services with a professionally managed support system of Strategy set-up, IT Consulting, IT and Hardware design, and final implementation of products and services.

From catering to large-sized Corporates to providing the best IT solutions for individual and household IT needs, Cyber Shoppe constantly strives to offer the newest technologies and dynamic solutions to all its customers. From specialized IT assistance to the management of day-to-day IT services, Cyber Shoppe offers the best set of innovative IT solutions based on the client's needs, budget, and requirements.

Why us?

Expertise

With the expertise of 20+ years in the IT industry, we have a thorough knowledge of IT products and services. Our experience enables us to recognize, resolve, and cater to all-round IT needs in the best possible ways.

Innovation

Innovation is the pillar of our enterprise. In an era where technology is undergoing changes every single minute, we make it a priority to offer dynamic and innovative IT solutions to all our customers through our products and services.

Association

We have a strong association with IT leaders and brands like HP, Lenovo Dell EMC, VMware, Fortinet, Sophos, Cisco, Logitech, Eton, and Numeric Microsoft that have led this industry.

Accountability

We don't just provide you solutions, but we stand by your side to ensure that the solutions offered by us are implemented perfectly at your end. We consider ourselves responsible and accountable for our services.

Efficiency

Our services and products are priced efficiently so that our customers can derive the maximum value out of them.

Support

With a robust customer support system in place, we are here to take care of all your IT related queries and grievances 24/7.

Our vision

The efficacy of an IT solution is not dependent only on the product, but it is dependent on the solution offered by the product.

To help organizations and individuals derive simple solutions for complex IT Tasks.

To make organizations and individuals self-sustainable for IT

Our vision

To provide the best IT solutions at affordable prices

To provide ethical and honest recommendations and consultancy for IT

Networking Solutions

Network is the backbone of your IT infrastructure – and of your business. It has to be fast, scalable and secure – and that means it has to be architected by technology experts who understand your business needs. To maximize performance and reliability, your network has to be built on the right routing and switching foundation – one that delivers a consistent, high-quality experience for mission-critical applications and communication services.

Quality is what we do!

From the **Directors' Desk**

"Cyber Shoppee was the result of our quest for innovation and our willingness to make every home and office in Rajasthan completely IT-Driven. We are living in the age of technology and thriving on new ideas every single day. When an organization's IT needs are perfectly fulfilled, their imagination gets wings and they can achieve greater goals every single day. Similarly, when Students have access to proper and specialized IT products, they can innovate, experiment, learn, and make the best use of their skills. As founders, our aim is to provide sustainable and long-vision IT Solutions to one and all at the most efficient prices. We believe in customer satisfaction and that is what drives our organization."

Kumud Kumar Jain and Nitin Jain
